

KIRTI KUMAR PIPLAJ

Frontend Developer | React, Next.js & TypeScript
kpiplaj0108@gmail.com | +91 9340531981 | LinkedIn | GitHub | Portfolio

Professional Summary

Frontend Developer with 3+ years of experience building scalable web apps, Web3 platforms, and UI-rich products using React, Next.js, and TypeScript. Comfortable using AI-assisted tooling and prompt engineering to speed up development and ship features faster without compromising code quality. Proven track record across fintech, astrology, real estate, and Web3.

Technical Skills

Frontend: React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Framer Motion, GSAP, MUI, Shadcn/UI, Radix UI, Redux Toolkit, Zustand, TanStack Query, React Hook Form, Zod

API Integration: RESTful API Integration, Axios, JWT-based Auth Flows, Responsive Web Design, Cross-Browser Compatibility, Performance Optimization

Web3 (Frontend): Wagmi, Viem, Ethers.js, MetaMask, WalletConnect, Coinbase Wallet

AI-Assisted Development: Antigravity IDE, GPT-4/5, Prompt Engineering, LLM Integration, Rapid Prototyping

Tools & Practices: Git, GitHub, Firebase, Supabase, Vercel, AWS S3, Postman, Figma, Agile/Scrum

Work Experience

Frontend Developer — Codes for Tomorrow (CFT), Indore, India

08/2025 – Present

- Build and maintain production-grade frontend applications across Web3, fintech, and astrology domains using React, Next.js, and TypeScript.
- Leverage Antigravity AI IDE and prompt engineering for AI-assisted development — shipping features end-to-end without UI designs, accelerating delivery by 3–5x.
- Developed Web3 wallet integrations (MetaMask, WalletConnect, Coinbase Wallet) using wagmi/viem for decentralized application flows.
- Contributed to 10+ client-facing products including crypto payment gateways, astrology portals, real estate platforms, and admin dashboards.

Frontend Developer — Web Impact Software Solutions, Indore, India

09/2023 – 07/2024

- Developed dynamic web applications with Vue.js and TailwindCSS, optimizing component and REST API integrations.
- Collaborated with designers and backend engineers to deliver responsive, cross-browser-compatible UI features on schedule.

Software Engineer — Bellurbis Technologies, Indore, India

09/2021 – 03/2022

- Built a full-featured Recruitment Management System (ReactJS, MUI, Redux) for end-to-end candidate pipeline management.
- Integrated RESTful APIs and implemented reusable UI components to streamline feature development.

Key Projects

House of Frac — Real Estate Fractional Ownership Platform

React, TypeScript, Redux Toolkit, Firebase, Socket.io, TailwindCSS, Framer Motion, GSAP, Google Maps API

- Full-stack fractional real estate investment platform with portfolio tracking, real-time updates via Socket.io and Firebase, Google Maps integration, admin dashboard, and trustee portal.
- Designed interactive data visualizations and smooth interface transitions using Framer Motion and GSAP to enhance the property discovery and investment workflow.

MeraAstro — Astrology Consultation Platform

React, TypeScript, MUI, TailwindCSS, TanStack Query, Axios, Firebase, GPT-based Chatbot

- Feature-rich astrology platform with live consultations, kundli generation, horoscope services, and a GPT-based chatbot that answers personalized birth-chart queries, alongside robust auth flows, offline detection, and error boundary handling.
- Built high-performance, mobile-first consultation interfaces and dynamic booking flows using Material UI and TailwindCSS for seamless cross-device responsiveness.

BridgeKey — Web3 Multi-Chain Portfolio & DeFi Dashboard

React, TypeScript, Wagmi, Viem, WalletConnect, Coinbase SDK, Redux Saga, TailwindCSS, Zustand

- Unified Web3 portfolio tracker with MetaMask/WalletConnect/Coinbase wallet support, cross-chain balance view, token swap, and asset bridging. Delivered corporate website and support portal.

Education

B.Tech — Computer Science & Engineering — Acropolis Institute of Technology & Research, Indore 2021 CGPA: 7.43
